

Precursor Launches a Precursor.ca App!

Contact: Alex Narvey

Precursor Systems is pleased to announce a powerful new web app as a companion to the Precursor.ca web site.

Using what we've learned at various developer and technical conferences, we designed an app to allow our customers to get the most out of Precursor.ca in a format best suited to handheld devices like iPhone, iPad and iPod Touch.

Using web app technology, the new Precursor.ca app can be installed right to your phone or pad's Home Screen just like apps you purchase from the Apple App Store. With a simple tap, the new app will give you one handy little place to interact with Precursor.ca:

- Keep up with our internet presence on Twitter, FaceBook, LinkedIn, and Yelp.
- See us on Apple Consultants Network and FileMaker Business Alliance
- Contact us with one click via email, SMS, telephone, and/or Skype
- Read the latest Precursor Press Releases
- Check out our new BLOG for the latest and greatest tips and analysis
- Use a special mobile version of the Precursor Trouble Report Form!

"This new app is a great way to leverage our many online initiatives all into one easy-to-use format that makes the most of new time-saving technologies like hand-scanning and dictation"" said Precursor founder Alex Narvey, "It sets a new standard for convenience, easy-of-use, and mobility!"

Check out the app at: Precursor.ca/iOS or just scan the QR code below.

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, Prepress, Digital Imaging, Audio and Video industries.

More information is available at our web site:
