Precursor Celebrates 25th With Dark Mode Web Site!

Contact: Alex Narvey

Precursor Systems is pleased to announce a special Dark Mode version of our web site – unveiled as part of our 25'th Anniversary celebrations!

One of the coolest things about Apple's new macOS Mojave operating system is its new *Dark Mode* feature. And what better way to celebrate Precursor's 25'th Anniversary than to bring out a Dark Mode version of our web site!

Apple says "*Dark Mode is a dramatic new look that helps you focus on your work.*" So Precursor founder Alex Narvey went ahead and created a special dark version of our normally white background web site.

Our new Dark Mode web site is automatically turned on in the evening between the hours of 7 p.m. to 7 a.m. (Central Time) so that those who are burning the midnight oil can browse with the soothing dark background. But don't fret! You won't have to stay up late to check it out. If you are browsing in the daylight hours of 7 a.m. to 7 p.m. just scroll to the bottom of any page and click the Dark Mode check box found below the copyright line on our pages.
