Precursor Revamps Monthly Reports with APIs

Contact: Alex Narvey

Precursor Systems is pleased to announce that that we have substantially upgraded our monthly reporting format.

The new Precursor Monthly Report went into affect today taking advantage of the work we have been doing with FileMaker and APIs (Applications Programming Interfaces) and that we have presented on at recent conferences like MacTech Conference L.A. and the MacDevOps YVR conference in Vancouver.

Using API integration with the various services and tools we employ, our FileMaker Server now talks to munkireport, DNSFilter, Mosyle MDM, Watchman Monitoring, Zendesk, and more to give you a more comprehensive, yet simplified - and graphically rich report.

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, Prepress, Digital Imaging, Audio and Video industries.
