

Press Release

Precursor Adds Service Status to Contact Menu

Contact: Alex Narvey

Precursor Systems is pleased to announce that that we added an Online Service Status check to the handy Precursor Contact Menu.

We have gathered links to online service status for the major services including: Apple, Microsoft 365, Google Workspace, Shaw Cable, Bell MTS, and Rogers. Now it is easy to find out if your connection problem is just you or a network-wide issue.

The Precursor Contact Menu appears in our Support Plan clients' macOS menubar (and Windows taskbar). It contains links to our Trouble Report Form; Upgrade Scheduling; Software Updating; Remote Support; macOS documentation; File Servers; Webmail and vacation message settings; and other valuable company resources.
