

Narvey completes MTC

Contact: Alex Narvey

Precursor Systems is pleased to announce that company founder is completing Apple's new Mobility/iOS Technical Competency training this week in Calgary.

This two day intensive, hands-on course follows up on hours (12-14) of online training and several Apple Certifications including Apple Certified Technical Coordinator [ACTC] and Apple Certified Specialist for Security and Mobility [ACSSM] both of which Mr. Narvey obtained previously (see Precursor News item PS-PR-100419.pdf and PR-110314.pdf).

Mobility/iOS Technical Competency is one of the first skill sets in the new post PC era and has been designed by Apple to ensure that members of the Apple Consultants Network are ready for the deployment and management of iPads and iPhones for businesses of all sizes.

The MTC is just part of Alex's and Precursor's ongoing efforts to bring honest computer expertise to clients who need to contract out for their I.T. needs.

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, Prepress, Digital Imaging, Audio and Video industries.
