

## ***Precursor Unveils Revamped Web Site***

Contact: Alex Narvey

Precursor Systems is pleased to announce our web site has been extensively revamped for our 20'th Anniversary.

The Precursor web site debuted on July 9, 1995 at [magic.mb.ca/~anarvey](http://magic.mb.ca/~anarvey) and over the years has gone through a constant evolution of content, code, and even address until its present modern look at [www.precursor.ca](http://www.precursor.ca).

The new web site has been extensively rewritten from the ground up:

- to take advantage of the latest technologies
- be optimized for the latest mobile devices
- leverage HTML5 / CSS3 to reduce code and provide compatibility
- incorporate PHP, FileMaker, NetCloak and FDML for our customized intergrations
- tie in to our social presence on Twitter, Facebook, Google+, LinkedIn, Tumblr, and Yelp!
- be Search Engine Optimized
- provide special Meta Tags for FaceBook, Twitter and iOS
- display a searchable archive of Precursor publications over the years
- maintain our customized individual customer service pages for clients

It has been a long road and looking back through our archives was a real kick! We enjoyed it so much we have posted a retrospective on our web site for those interested entitled: [Precursor Web Site Odyssey](#).

# **Precursor.ca** 20th ANNIVERSARY!

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, Prepress, Digital Imaging, Audio and Video industries.
