

## ***Precursor is Cisco Meraki SMB Solutions Certified !***

Contact: Alex Narvey

Precursor Systems is pleased to announce that Alex Narvey has passed all the required training to become Cisco Meraki SMB Solutions Certified!

Apple has partnered with Cisco Meraki to provide the Apple Consultants Network specialized access to Meraki Go product and to specially tailored training for both the Meraki Go and Meraki Dashboard Full Stack, including: MR Wireless; MX Security Appliances; MS Switches; MV Security Cameras; SM Systems Manager; and Meraki Insight.

The Meraki Dashboard Full Stack has been the go to choice for business and in 2018 was named the Gartner Peer Insights Customers' Choice.

The Cisco Meraki - Apple partnership has already produced FastLane - whereby all Meraki wireless products have built-in integration to be able to prioritize traffic from iOS devices like iPhone and iPad.

Meraki Go is a new product line offering for the very small/micro business (meaning less than 100 employees). It is managed through a convenient and easy-to-use iOS Meraki Go app available on iPhone and iPad.

Because the new Meraki Go line is so well placed for small businesses using Apple technologies, Apple and Cisco Meraki have partnered to give certified members of the Apple Consultants Network premium access to training, testing, and distribution.

Precursor Systems became a Cisco Meraki partner in 2015 and is very excited to be able to offer the new Meraki Go product line to our clients. The Meraki Go line currently consists of high quality and easy-to-use wireless access points and will be joined in June 2019 by a similarly easy to manage line of Meraki Go Switches and Security Appliances.

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, Prepress, Digital Imaging, Audio and Video industries.
