Precursor Systems

Precursor Systems Now an Apple Technical Partner

Contact: Alex Narvey

Precursor Systems is pleased to announce that company founder Alex Narvey has now met the requirements to become an Apple Technical Partner.

This new Apple designation indicates that Precursor Systems has trained technical staff that specialize in consulting and technology services for business customers on the Apple platform.

Alex, and Precursor Systems have a long and strong association with Apple from the date we began operations in 1994. Alex became an Apple Solutions Expert in 1998 and when that program was superseded by the Apple Consultants Network in 2002 he was one of the first consultants in Canada to become a certified member of that program. Apple Technical Partner is just the latest, and most important step in that journey.

"We are excited that Precursor Systems is now an Apple Technical Partner", said company founder Alex Narvey, "and we look forward to bringing our skills and expertise to small business clients that are looking to deploy and manage the latest Apple technologies in a secure and efficient way and to help them become more profitable and better serve their own clients."

 Technical Partner

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, Prepress, Digital Imaging, Audio and Video industries.
