Precursor Systems

Precursor Systems Contracts for $24,000 XServe System

Contact: Alex Narvey

Precursor Systems is pleased to announce a contract for the sale, set-up and maintenance of a $24,000+ Apple server.

Precursor Systems became an Apple Authorized Reseller earlier this year and since that time has sold and supported every segment of Apple's product line. Now we are pleased to announce the sale, set-up and support of a $24,000+ Apple server.

The server, to support a large direct marketing firm, includes an Apple XServe server and very high capacity Apple XServe RAID data storage system. In addition to being the vendor for the project, Precursor Systems has been chosen to set-up and maintain the system.

Precursor Systems has been involved with setting up and supporting Apple servers for business for many years and is very pleased to be able to be involved in this large scale server integration project.

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, PrePress, Digital Imaging, Audio and Video industries.
