# Precursor Systems

## *Precursor Systems Now ACSA Certified*

Contact: Alex Narvey

Precursor Systems is pleased to announce that company founder Alex Narvey is now an Apple Certified System Administrator.

The ACSA program is Apple's third and highest level certification and significantly expands on Mr. Narvey's prior certifications: ACHDS (Apple Certified Help Desk Specialist); and, ACTC (Apple Certified Technnical Coordinator).

Apple says the "Apple Certified System Administrator (ACSA) certification verifies an in-depth knowledge of Apple technical architecture and an ability to install and configure machines; architect and maintain networks; enable, customize, tune, and troubleshoot a wide range of services; and integrate Mac OS X, Mac OS X Server, and other Apple technologies within a multi-platform networked environment. The ACSA certification is intended for full-time professional system administrators and engineers who manage medium-to-large networks of systems in complex multiplatform deployments."

In additon to our certifications, Precursor Systems is proud to have been a member of the Apple Consultants Network since its inception.

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, Prepress, Digital Imaging, Audio and Video industries.
