Precursor Systems Now Kerio Certified

Contact: Alex Narvey

Precursor Systems is pleased to announce we are now a Kerio Certified Business Partner - Messaging.

Kerio MailServer is a best of class mail server product that allows companies to take control of their own email providing excellent security, top notch web mail, and a very easy to use vacation system. Now, to better service you, Precursor Systems has achieved certification in this product line and we are pleased to announce our membership as a certified reseller in the Kerio Certified Business Partner - Messaging.

Precursor Systems has had great success with the Kerio MailServer. In 2005, we completed two major installs providing one multi-office company with its own mail server for the first time and converting another company with a weak and expensive Windows-based mail system to an efficient and inexpensive Kerio MailServer running on Mac OS X.

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, Prepress, Digital Imaging, Audio and Video industries.
