Precursor's Narvey Attends FileMaker DevCon!

Contact: Alex Narvey

Precursor Systems is pleased to announce that company founder Alex Narvey will be attending the 2008 FileMaker Developers Conference (DevCon) in Phoenix, July 13-17.

FileMaker DevCon is the international annual gathering for all FileMaker enthusiasts. According to FileMaker, Inc. "It's where the brightest FileMaker brains converge every year to share discoveries and advice. You go face-to-face with the best in the business."

Precursor.ca, Inc. has been using FileMaker for years to keep the books, run the trouble ticket system, organize software and hardware records, run the website, and even to batch email our Précis newsletter .

"We have been running our own business and web site using FileMaker Server for years," says Precursor.ca, Inc. founder Alex Narvey, "But with more and more of our customers running their businesses off of FileMaker databases, more of them investing in the power and flexibility of their own FileMaker Servers, and with the iPhone poised to bring handheld data to Canada, we felt the time was ripe to re-invigorate our skills and broaden our horizons in this critical technology."

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, Prepress, Digital Imaging, Audio and Video industries.
