Precursor's Narvey Heads to Advanced Tech Camp!

Contact: Alex Narvey

Precursor Systems is pleased to announce that founder Alex Narvey will be going to Apple's Professional Services Advanced Tech Camp in Tahoe City, California in November.

Precursor Founder Alex Narvey has attended Apple's Tech Camp for the last four years and has previously been to two in Ontario and two in San Jose, California. The curriculum for this camp is being developed for certified Apple System Administrators in collaboration with Apple Education, Apple Enterprise and Apple Global Training.

Courses are taught by the same top-flight people that train Apple's own System Engineers and students get to learn how to configure and troubleshoot enterprise level installations in labs full of high end equipment.

Advanced Tech Camp is just one of the things Alex does to try and keep his skills sharp. This year, Alex has also attended Apple's World Wide Developer Conference in San Francisco, The FileMaker Developer Conference in Phoenix, MacWorld Expo in San Francisco, and Apple Canada's first Channel Camp in Markham, Ontario. In addition, Alex takes a lot of online courses through Apple's own Training web site.

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, Prepress, Digital Imaging, Audio and Video industries.
