

Precursor's Narvey to Attend Apple Advanced Camp

Contact: Alex Narvey

Precursor Systems is pleased to announce that company founder Alex Narvey will be attending Apple's Advanced Professional Services Tech Camp in Chicago, November 15-20th.

Apple describes this year's Advanced Camp as "a highly technical, mostly hands-on curriculum focused on Snow Leopard that has an emphasis on Apple's best practices and preferred technology and how that technology can be implemented on a variety of scales, from small business to school districts to enterprise level and government organizations."

This will be the seventh Apple technical camp that Mr. Narvey has attended since 2005.

"These camps are exhaustive and exhausting..," says Precursor Founder Alex Narvey. "We get our training from Apple's best instructors; the same people who train Apple's own System Engineers."

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, Prepress, Digital Imaging, Audio and Video industries. Precursor Systems is proud to be designated an Authorized Apple Value Added Reseller and Alex Narvey has been a certified member of the Apple Consultants Network since the programs inception.
