

Precursor Launches Précis BLOG!

Contact: Alex Narvey

Precursor Systems is pleased to announce it is publishing a new BLOG to complement its Précis newsletter.

The new Précis BLOG will be used to cover business, technical, and cultural issues in a way that goes beyond what we can do in the limited format of the Précis email newsletter. It will also allow for more depth and detail than the Precursor.ca Twitter feed and Facebook page. And, last but not least, its single topic format can be updated on an adhoc basis in between editions of our multi-topic Precursor Précis newsletter.

The new weblog format is being hosted at Tumblr.com <<http://precursorca.tumblr.com>>. And, it will be also made available through our upcoming Precursor.ca web app.

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, Prepress, Digital Imaging, Audio and Video industries.

More information is available at our web site:
