

Watchman Monitoring Sponsors the Precursor R.A.I.S. page

Contact: Alex Narvey

Precursor Systems is pleased to announce that Watchman Monitoring is now sponsoring the R.A.I.S. page.

The Precursor R.A.I.S. page <<http://rais.precursor.ca>> was started by Alex Narvey in 2011 to be a one-stop shop for all things related to Redundant Arrays of Independent Servers after Apple killed its enterprise server product the Xserve.

Watchman Monitoring <<http://watchmanmonitoring.com>> founded by Allen Hancock of Baton Rouge, LA is the premier monitoring product for Mac, Windows and Linux servers providing powerful error detection of over 100 issues along with

Watchman Monitoring now provides RAIS operators with early notification of issues which may lead to failover, allowing time for preventative action. In the event of auto-failover (via smart PDU devices) Watchman Monitoring will automatically warn that the system has booted off the secondary server. The RAIS can continue serving data while the primary Mini is repaired and prepped to be the next backup server.

WATCHMAN M O N I T O R I N G

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, Prepress, Digital Imaging, Audio and Video industries.
