## ***Precursor Systems Now a Cisco-Meraki Partner***

Contact: Alex Narvey

Precursor Systems is pleased to announce that we are now a Cisco-Meraki Partner capable of vending, deploying and maintaining the entire line of Meraki cloud managed networking products.

Cloud Networking provides centralized management, visibility, and control without the cost and complexity of controller appliances or overlay management software.

Meraki's founders invented Cloud Networking while working as graduate students at M.I.T. Cisco Meraki now has a complete line of cloud networking products that power over 20,000 customer networks, including massive global deployments with tens of thousands of devices.

We are very pleased to be a Meraki reseller," said Precursor founder Alex Narvey. "With the Meraki lineup we have stepped up our game in networking and security to provide even the smallest business with affordable and best-in-class networking and security."

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, Prepress, Digital Imaging, Audio and Video industries.
