

## *Precursor's Narvey Refreshes MTC*

Contact: Alex Narvey

Precursor Systems is pleased to announce that company founder Alex Narvey is refreshing his Apple Mobile Technology Competency this week at Apple's corporate office in Reston, Virginia.

Apple's new iOS Deployment Workshop is a refresher course to those who originally took Apple's iOS Mobile Technology Competency – as Alex first did in November, 2011 (see: Precursor PR-111123).

The intensive, hands-on course for members of the Apple Consultants Network has been updated to cover iOS 9 and DEP deployment methods for business and is focused on the skills, tools, and knowledge needed to deploy iOS devices. The knowledge and skills are tested and reinforced by working through real-world scenarios.

The MTC is just part of Alex's and Precursor's ongoing efforts to bring honest computer expertise to clients who need to contract out for their I.T. needs.

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, Prepress, Digital Imaging, Audio and Video industries.
