

Alex Narvey to attend ACN Road Show & Training

Contact: Alex Narvey

Precursor Systems is pleased to announce that Precursor founder Alex Narvey will be attending Apple's ACN Road Show & iOS Deployment Training in Toronto, Ontario on April 10-12th.

The Apple Consultants Network has undertaken a multi-city North American tour to provide training for iOS Deployment. The Road Show will be visiting: Miami, FL; Los Angeles, CA; Austin, TX; New York, NY; Minneapolis, MN; Reston, VA; Toronto, ON; Chicago, IL; and, Cupertino, CA.

A key part of this year's edition of the Road Show will be an entire day of ACN Program Overview including: program strategy, Apple's ecosystem partners, delivering an Apple experience to customers, a panel discussion with a member of the ACN Advisory Council, and a Q&A session with Apple.

The intensive, hands-on training course for members of the Apple Consultants Network is an opportunity to learn about the skills, tools, and knowledge needed to deploy iOS devices. Interactive discussion and hands-on exercises will guide students through the configuration, management, and supervision of iOS devices. Students' knowledge and skills will be tested and reinforced by working through real-world scenarios.

Precursor founder Alex Narvey has previously taken the iOS Deployment training in November 2011 at Calgary, Alberta (see: Precursor PR-111123), and in May, 2016 at Reston, Virginia (see: Precursor PR-160527). The iOS Deployment Training is just part of Alex's and Precursor's ongoing efforts to bring honest computer expertise to clients who need to contract out for their I.T. needs.

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, Prepress, Digital Imaging, Audio and Video industries.
