

Precursor's Narvey to Speak at ACES 2018

Contact: Alex Narvey

Precursor Systems is pleased to announce that company founder Alex Narvey will be attending the fourth annual ACES Conference May 9-10 in Baltimore, Maryland.

The ACES Conference was conceived by two members of the Apple Consultants Network (Justin Esgar and Luis Giraldo) as a conference "for consultants, by consultants." This year is the fourth annual. Topics will include lead generation, journey mapping, managed security services, time management, and more.

Alex presented at the 2017 ACES and has been invited back to take part in a business debate with Allen Hancock of Watchman Monitoring.

The podcasters from Command-Control-Power (who interviewed Alex in 2015– see Precursor PS-PR-150424) will be on hand for a live edition of their podcast.

"The ACES conference is a great opportunity to meet other Apple oriented consultants from other jurisdictions," said Precursor founder Alex Narvey, "Being a good I.T. support service means more than just being a good technician. The ACES conference helps me hone my craft at being a good consulting business."

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, Prepress, Digital Imaging, Audio and Video industries.
