Press Release   June 11, 2019

Precursor's Narvey to Present at MacDevOps YVR

Contact: Alex Narvey

Precursor Systems is pleased to announce that company founder Alex Narvey will be presenting at the fifth annual MacDevOps YVR Conference, June 12-14 in Vancouver, B.C.

macdevops:YVR billed as "All things Mac, Dev, and Ops" is a conference put together by Vancouver consultant Mat Xavier and features speakers presenting on a number of topics related to Mac administration and deployment.

Mat Xavier has been working tirelessly to build macdevops:YVR into a world class conference and this year's edition features an all female panel discussion entitled "Coding for girls / Women in I.T. – How can we encourage women and diversity in I.T.?"

This year Precursor's Alex Narvey will be giving a short presentation on the use of FileMaker as a tool to integrate and automatic web site services via REST APIs.

"Using techniques I was introduced to at conferences like MacAD.uk, MacTech, and FileMaker DevCon I was able to automate some management work that was stimeying me because is was too complex to even tackle into a FileMaker app that takes two button clicks and three and a half minutes!," said Precursor founder Alex Narvey, "I am really excited to present this at macdevops:YVR!"

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, Prepress, Digital Imaging, Audio and Video industries.
