## Precursor Celebrates Canada Day with Web Site Theme

Contact: Alex Narvey

Precursor Systems is pleased to celebrate Canada Day with a special web site theme.

As part of our 25th Anniversary celebrations we've been having a little fun with our web site. First, we were inspired by macOS Mojave to create a new Dark Mode for night-time viewing (see Precursor PS-PR-190122). Now we have leveraged what we learned with SSI (Server Side Includes) and CSS3 (Cascading Style Sheets) to provide special edition web pages for holidays like Canada Day.

The Canada Day edition of Precurosr.ca switches over to red colour schemes (from our usual Pantone 293 Blue). The *dot* in Precursor.ca becomes a maple leaf. And since our active tableau of moving cursors on the home page was all done in CSS it was easy to swap out the moving blue cursors for tumbling red maple leafs!

We had so much fun we created other special additions that will appear on Halloween, St. Patrick's Day, and Valentine's Day with moving ghosts and black cats, green shamrocks, and red hearts respectively. Who said computers and coding have to be boring!

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, Prepress, Digital Imaging, Audio and Video industries.
