
G3 Ethernet 2.0.1 !

Apple's new G3 Power Macs have a problem with ethernet connections to self-sensing 10/100BaseT hubs. Fortunately, the fix is already available in a G3 Ethernet 2.0.1 file. The G3 Ethernet fix is available on-line at:

http://swupdates.info.apple.com/cgi-bin/lister.pl?Apple.Support.Area/Apple.Software.Updates/US/Macintosh/System/CPU_Specific_Updates/Power_Mac_G3/

Acrobat Distiller 3.0.2!

Adobe has an update to its PDF generating software RIP tool Acrobat Distiller. The new version is not an updater file – it is actually the full program (which requires a serial number). The new version fixes various small bugs and is available on-line at:

<ftp://ftp.adobe.com/pub/adobe/acrobatdistiller/mac/3.x/>

FWB Hard Disk Toolkit 2.5!

FWB's formatting utility Hard Disk Toolkit version 2.0.6 has various problems with the new G3 Power Macs. Rather than fix the existing version, the company has applied the fix to the long awaited Hard Disk Toolkit 2.5. The new version will ship December 19 and is available for \$29 US to owners of version 2.0.6. To place an upgrade order, call the FWB Upgrade Center at 800-581-4392." For other questions, you may email FWB support at support@fwb.com or call 650-482-4800.

Happy Holidays
