

Adobe PSPrinter PDF Plug-in!

Apple's LaserWriter 8.5.1 (*Precursor PDFNews* 06/02) print driver already has the option of saving direct to PDF format (if you have Acrobat Distiller 3.0.2 (*Precursor PDFNews* 06/03) installed). Now, Adobe's version of the 8.5.1 print driver "Adobe PSPrinter" (*Precursor PDFNews* 06/04) gets this capability via a plug-in module. The PDF plug-in is available at:
<http://www.adobe.com/supportservice/custsupport/LIBRARY/4f0e.htm>

Aladdin DropStuff 4.5

Aladdin, makers of the StuffIt family of compression products have finally released the shareware compressor component DropStuff 4.5 to match the Expander 4.5 and Deluxe 4.5 released earlier (*Precursor PDFNews* 06/02). DropStuff allows you to drag-and-drop compress files into .SIT, .HQX, and .SEA formats and also with its Expander Enhancer component lets you decompress more files with StuffIt Expander including .ZIP files. DropStuff can be registered for \$30 US (\$15 if you were a registered owner of a previous version) and is available at:
<http://www.aladdinsys.com/dropstuff/index.html>

Adobe ImageReady 1.0

Adobe has come out with a new application targeted to those who create web graphics. ImageReady is made to create and refine GIF, JPEG, PNG and other web graphics. A demo is available on-line at:
<http://www.adobe.com/newsfeatures/imageready/main.html>

MasterJuggler Pro 2.0.1

Alsoft has a patch for its font management utility MasterJuggler Pro that gives it full compatibility with Mac OS 8.1. The new patcher is available on-line at:
<http://www.AlsoftInc.com/MJPtech.html>

AppleShare 3.7.4

Apple has released the file sharing component of Mac OS 8.1 separately. AppleShare 3.7.4 requires Mac Os 7.5.3 or higher and Open Transport 1.1.2 or higher. It is available on-line at:
http://swupdates.info.apple.com/cgi-bin/lister.pl?Apple_Support_Area/Apple_Software_Updates/US/Macintosh/Networking-Communications/AppleShare_Client/
