

Extensis Suitcase 8 News!

Extensis has produced a second Suitcase 8 beta and has announced the new version will ship in April with full Mac OS 8.5.1 compatibility and a Quark XTension that will automatically open fonts that are in your Quark document. It will also come with Suitcase MenuFonts, a control panel that performs some of the work of Adobe's Type Reunion. Suitcase will retail for \$99.95 U.S. Upgrades will be \$40. Competitive upgrades from Adobe Type Manager will cost \$50.
