## Adobe Illustrator 8.0.1

Adobe has a minor bug fix for Illustrator 8 which cures a variety of problems including the random crashing when accessing preferences under Mac JS 8.5+. Compatibility with Acrobat 4.0 has also been added. The updater is available on-line at:

<http://www.adobe.com/supportservice/custsupport/LIBRARY/ilmac.htm>

---

## Apple QuickTime 4.0

Apple's Quicktime 4.0 software has graduated from beta and is available on the web. (Final Cut Pro users should know that this product is only qualified for the beta and not yet for the final release). QuickTime 3.0 Pro users automatically enable QuickTime 4.0 Pro. The small installer file (which downloads the rest of QuickTime 4.0) can be downloaded at:

<http://www.micromat.com/micromat/software.html>

---

## Global Village GlobalFax 2.6.8

Global Village has updated the software for all external TelePort modems including the Platinum, the TelePort 33.6, and all TelePort 56K (X2, Flex and V.90) models including the new USB TelePort. Find it on-line at:

[http://www.globalvillage.com/support/GlobalFax-2\\_6\\_8.html](http://www.globalvillage.com/support/GlobalFax-2_6_8.html)

---

## UMAX MagicScan 4.2.1

UMAX has updated the software for its high-end scanners including the Mirage, PowerLook & Gemini models. The 32 Mb download is available at:

<http://www02.umax.com/download/product.cfm?prdCat=Scanner>

---

## AGFA ScanWise 1.0.4

AGFA has updated its new intelligent software for the 1212 series of scanners. The software can automatically insert scans into the application of your choice. Customers who purchased 1212 scanners before ScanWise was available can download it for free at:

<http://www.agfahome.com/products/dtp/software/scanwise.html>

## Symantec Retires SAM

A year after introducing Norton Anti-Virus 5.0, Symantec is cutting ties with SAM. Phone support was dropped May 31 and new virus files will cease July 31. We note that the SAM 4.5 June definitions have yet to appear so perhaps its already over for SAM. We remind SAM users to upgrade to Norton Anit-Virus 5.0 if they have not already done so.
