## Adobe GoLive 5.0

Adobe will ship GoLive 5 this spring. The new version introduces numerous innovations, including an on-board interactive editor for editing multimedia, '360Code' that enables complete control over any Web design source code, superior site planning and management, 'asset' check in and out through WebDAV support, and 'smart links' that provides drag-and-drop object-sharing with other Adobe products. Plus, advanced functionality such as Dynamic Link simplifies the incorporation of dynamic database and e-commerce capabilities. Estimated street price of version 5 will be \$299 US. If you purchased GoLive 4 after April 4 you can receive version 5 for the cost of shipping.
