Apple USB Printer Sharing 1.0

USB Printer Sharing 1.0 lets you share Universal Serial Bus (USB) printers among multiple Macintosh computers using Transport Control Protocol / Internet Protocol (TCP/IP) on physical (Ethernet) and wireless networks (AirPort). According to Apple All USB PostScript printer compatible with Desktop Printer Utility 1.2 and LaserWriter 8.7 are compatible with USB Printer Sharing 1.0. This includes USB PostScript printers from Canon, GCC, Hewlett-Packard, Lexmark, Tektronics and Xerox. Various inkjet printers (including Epson) are supported –please consult http://til.info.apple.com/techinfo.nsf/artnum/n86054 for details. (Mac OS 9 is required). http://asu.info.apple.com/swupdates.nsf/artnum/n11726

Apple AirPort 1.2

AirPort 1.2 provides enhanced performance, compatibility, stability, and functionality. AirPort 1.2 includes the complete software base station feature. The AirPort 1.2 base station software now supports closed networks for greater security. http://asu.info.apple.com/swupdates.nsf/artnum/n11570

FAXstf 5.1.1

FAXstf 5.1.1 is an update to the version of fax software bundled with some Apple computers. This update deals with a laundry list of bug fixes and minor enhancements. ftp://ftp.stfinc.com/pub/uploads/FAXstf511Updater.hqx

La Cie Silverlining 6.2.1

LaCie has just begun shipping a Silverlining Pro 6.2.1 update for owners of Silverlining Pro 6.x (previous version owners of 5.8.x can purchase the retail version for $49 US). Version 6.2.1 supports FireWire storage devices plus USB, SCSI, ultra2, ultra160 and IDE storage devices. compatibility with Mac OS 8.5-9.0.x has been improved as has compatiblity with Norton Disk Doctor for HFS+ partitions. http://www.lacie.com/scripts/support/updaters_sl.cfm

NUM 5.0.3 / NAV 6.0.2

Symantec has released minor updates to Norton Utilities for the Mac (NUM) and Norton Antivirus for the Mac (NAV). The updates are part of a CD that can start up the latest G4s, iBook, and PowerBook G3s that come with Mac Os 9.0.x. CDs can be ordered for a nominal fee from: http://service1.symantec.com/SUPPORT/num.nsf/docid/1999101108320911&src=hot If you don't need the CDs you can update for free using the Symantec Live Update feature. A few notes on this method: 1) Some cable modem services interfere with the operation of Live Update; 2) the NAV 6.0.2 updater tends to not work on versions that were previously updated to 6.0.1 using Live Update. In this case you will need to reinstall NAV 6.0 first. **Precursor Systems** would be pleased to help you with these updates at your next scheduled maintenance.
