## Netscape Communicator 4.76

Netscape has provided fixes for stability in the latest Communicator. As usual, we recommend you have us install this rather complex update for you. (Or better yet switch to the superior Internet Explorer 5).

## Adobe Type Manager Light & Deluxe 4.6.1

Adobe has brought out a new 4.6 upgrade titled 4.6.1 with little or no release notes describing the improvements. The upgrade requires a valid version 4.5 serial number. A Light version with the font smoothing but without the font management capabilities is also available.

## Aladdin Stuffit 6

Aladdin has updated the entire Stuffit family of compression products to work under Mac OS X beta. The flagship Stuffit Deluxe 6 has been redesigned from the ground up with a new cleaner interface. New features include searchable archives and a ReturnReceipt feature that notifies you when your archived email attachments are received and opened. Upgrade prices are \$29.95 US. The Shareware components DropStuff and DropZIP are also updated as is the Freeware Stuffit Expander.
