

Mac OS 10.0.1

Apple has already provided an update for Mac OS X which shipped on March 24. The new version is available through the Software Update center in the Mac OS X System Preferences. The update provides improved support for third party USB devices, Classic compatibility and overall application stability.

Quark 5 Beta Testing

Quark Inc. says it is opening up its beta-testing program for the upcoming QuarkXPress 5.0. Version 5 is currently testing at 60 sites. Having learned its lesson from the very buggy early versions of Quark 4, the company has let it be known that Quark 5 release version will not be available any time soon. The official word is that "When you the users decide it is ready to ship, that's when it will ship".

If you are still interested in being a beta tester contact Quark at qxp_testing_admin@quark.com

LaCie Silverlining Pro 6.4.1

LaCie has made numerous improvements to its hard drive formatting and testing utility SilverLining Pro.
