## Suitcase 10

Extensis has upgraded its font management utility Suitcase and this time it is a biggy. Suitcase finally offers auto-activation à la ATM Deluxe. It also sports Collect for Output, support for Multiple Master fonts and a host of other new features. A Mac OS X native version is promised for later this year. Upgrades from previous versions or competitive products cost \$49.95 US.

---

## PageMaker 7.0

Adobe has finally worked over its aging PageMaker product. The new version has been designed with network publishing in mind –in particular this means that the PDF capabilities have been brought in line with Acrobat 5 and its ability to publish to PDAs like the Palm OS. The new PageMaker is NOT Mac OS X native. Upgrades from previous versions are \$79 US.

---

## Micromat TechTool 3.0.1

The classic Mac free helper application has been brought into line with its big brother TechTool Pro. We're not enthralled with the new interface, butr you can't beat it for rebuilding your desktop file, zapping your PRAM and checking the integrity of your System files (now up to version 9.1).

---

## ATM Lite 4.6.2

ATM Lite 4.6.2 now offers explicit Classic support under Mac OS X. IF you are using Mac OS 10 you should install ATM Lite even if you are using ATM Deluxe –the Deluxe version will use the font smoothing component from ATM Lite 4.6.2. NB. If you are not using Mac OS X there is no need to upgrade.
