

Apple Mac OS 9.2.1

Apple has quietly released Mac OS 9.2.1 –a free update to users of Mac OS 9.1 and 9.2. The new OS updates various components to their latest version and provides better Classic environment when using Mac OS X. At this point, the only compelling reason to move to 9.2.1 is if you bought a new Quicksilver G4 with 9.2 already on it or are already using Mac OS X. We recommend consulting us before installing this update.

Markzware FlightCheck Classic 4.1.2

FlightCheck Classic 4.1.2 is the latest version of Markzware's preflighting software. It now handles MS Word and PageMaker 7, has new controls for application generated clipping paths, ICC Profile usage, Postscript Color Space Management and Ink Density (highest pixel value in rasterized TIFF or EPS images), plus other improvements. FlightCheck 4.1.2 is priced at \$399 US; upgrades from any version are \$99 US. FlightCheck Collect is also available at a lower price.

Free Digital Design Buddy

This nifty free utility for designers came to my attention recently. It offers a proportion calculator, decimal equivalents, folding/imposition diagrams and much, much more. And hey, its free!
